

# LED 180° & 360° Lamps

## Outdoor LED Lighting

### Application

Bright Idea LED 180° & 360° street lights can be used in many applications. 360° lamps are ideal for post-top fixtures, bucket lights, and barn lights. Wall packs, canopy lights and floodlights are easily retrofitted with 180° lamps. This very versatile lamp is available in many wattages to meet your needs.

### Materials

Bright Idea LED 180° & 360° lamps are constructed with the highest quality materials and components. They are built to last giving you an industry leading 100,000 hours of life\*. The lamp housing is made from fire retardant polycarbonate and aluminum alloy is used for the heat sink. The working temperature for our 180° & 360° lamps is rated at -40°F to 176°F.

### Installation

Prior to installation, existing ballast must be removed and fixture wired direct. Installation by a licensed electrician is recommended.
